

## **VLADINSKY – PRIVATE COLLECTION**

“Private Collection” presents a selection of works from Vladinsky’s own personal collection, pieces that have been held back, kept outside the market, and until now unseen by the public.

Following a series of international presentations, the artist returns to Bucharest with works that define his trajectory, but were never released. By bringing them into a public space, their status shifts from private ownership to shared experience.

This is not a retrospective, but a rare moment of access into the artist’s private archive, temporary, selective, and intentionally incomplete.

## **SELECTED WORKS**

---
